

URBAN CHALLENGES - NORDIC SOLUTIONS!

2016-04-28

Av: Nordregio

What does Aarhus do to counteract segregation in exposed areas? What concrete actions shall promote green mobility among the inhabitants of Oslo? How does Reykjavik include their citizens in their planning process? What innovative projects will promote biological diversity in Malmö? How will Copenhagen become the first carbon neutral capital in the world?

Nordic Innovation, Nordic Council of Ministers and [responsible Nordic Ministries](#) are proud to invite city planners, urban developers and other relevant stakeholders from the Nordic region to a Nordic Benchmarking Forum on joint Nordic urban challenges and solutions.

At this two-day conference you will get to be inspired by innovative and ambitious urban development projects from all the Nordic countries. In addition, it is an excellent opportunity for you to meet with likeminded people and expand your professional network.

We are also very proud to announce that the winners of the six competitions in [the Nordic Built Cities Challenge](#) will be made public and celebrated at the Nordic Benchmarking Forum.

The conference is free of charge, including a three-course dinner 15 June. The number of seats is limited and the no-show fee is 100 €/1.000 NOK if the participation is cancelled less than 14 days prior to the event.

For registration and more information, [click here](#).
